

Web Hosting Packages

Save Money. Don't Sacrifice Security.

We offer managed and unmanaged hosting packages with upgrade options as well as custom hosting solutions that accommodate specific business requirements. Our decentralized architecture allows us to provide higher reliability and redundancy to our clients.

Managed packages are designed for businesses who need highly-available web and database services with off-site mirroring and cryptographically secure backups. Dedicated server solutions are available with Windows, Linux or FreeBSD support and most packages include cPanel or Plesk for your convenience.

Unmanaged Hosting	Basic	Standard	Plus	Premium
Cost	\$84.00/yr	\$96.00/yr	\$32.50/mo	\$52.50/mo
Number of POP Accounts	10	15	20	50
